PROFILE

Aspiring **Data Analyst** with hands-on experience in **SQL, Microsoft Excel, and Power BI**. Skilled in **Data Cleaning, Data Analysis, KPI Reporting, and Dashboard Development** to extract insights from business datasets. Experienced in working with **sales and retail datasets**, performing **trend analysis and data validation**. Currently pursuing **BCA (2026)** and actively building practical projects in **Business Intelligence and Data Analytics**.

SKILLS

Programming & Query Languages — SQL (Joins, Group By, Subqueries, Aggregate Functions), PostgreSQL
Data Analysis Tools — Microsoft Excel (Data Cleaning, Pivot Tables, VLOOKUP, Conditional Formatting, Data Validation), Power BI (Interactive Dashboards, Data Visualization, KPI Metrics, DAX Basics, Data Modeling)
Data Analytics Concepts — Data Cleaning, Data Validation, KPI Analysis, Trend Analysis, Business Reporting, Data Interpretation
Key Competencies — Analytical Thinking, Problem Solving, Business Insights, Data Accuracy & Documentation

EDUCATION

Bachelor of Computer Applications (BCA) 07/2023 – 06/2026
Invertis University Bareilly

Higher Secondary (12th) 03/2022 – 04/2023
Heritage Children Academy Milak

PROJECTS

Pizza Sales Data Analysis
Sales Trend & KPI Analysis Using Excel
- Analyzed **21,000+ customer orders and 49,000+ pizzas sold** to identify sales trends and performance metrics.
- Performed **data cleaning and validation** to ensure data accuracy.
- Calculated key KPIs including **Total Revenue, Average Order Value, and Pizzas per Order**.
- Identified **peak sales days (Friday & Saturday)** and high-demand time periods.
- Analyzed sales by **pizza category and size** to determine top-performing products.

Retail Sales Data Analysis
Subtitle — Customer Behavior & Sales Insights Using SQL
- Created and managed a **structured SQL database** for retail transaction analysis.
- Cleaned raw data by **removing NULL values and correcting inconsistent records**.
- Performed **category-wise, gender-wise, and time-based sales analysis** using SQL queries.
- Identified **high-value transactions and top customers** to support business strategies.
- Generated analytical reports using **aggregate functions and group-by queries**.

Sales Performance Dashboard
Interactive Business Intelligence Dashboard in Power BI
- Developed an **interactive Power BI dashboard** to track sales performance and business KPIs.
- Created visualizations including **bar charts, line charts, and KPI cards**.
- Implemented **DAX calculations for revenue trends and sales analysis**.
- Enabled stakeholders to monitor **monthly performance and category sales insights**.

COURSES

Microsoft Excel with A.I Masterclass (Self Learning) 11/2025 – 12/2025
SkillCourse

Power BI Micro Course 02/2026 – 03/2026
SkillCourse

SQL 07/2025 – 09/2025
SkillCourse
